Abstract

Correction to Banks E, Jorm L, Lujic S, Rogers K. Health, ageing and private health insurance: baseline results from the 45 and Up Study cohort. *ANZ Health Policy* 2009; 6: 16.

Correction

In our paper on health, ageing and private health insurance [1] the second sentence of the second paragraph of the Statistical Methods should read: "All statistical tests were two-sided, using a significance level of $p < 0.05$." Hence, all of the confidence intervals shown in tables 1, 2 and 3 are 95% confidence intervals.
